

Ms Sekai D. Mupota

Zimbabwe Women with Disabilities in
Development (ZWIDE)

A legitimate voice for women and girls with disabilities.

. Presentation Title:

The significance of disability issues in SRHR
towards global development

Introduction

- Zimbabwean population is approximately 13million people, approximately 10% (1,300,000) are PWDs.
- 52% of PWD are female, approximately 676,000.

Environmental Scan

1. Work done

- ✓ Awareness campaigns.
- ✓ Consultative meetings .
- ✓ Compilation of existing gaps and proposed adjustments

2. Disability issues

- ✓ Compromised prevention and treatment SRH supplies.
- ✓ IEC
- ✓ Attitudes

Conclusion and Recommendations

Conclusion

The exclusion of disability issues in main stream SRH programmes negatively impacts on global development.

Recommendations

1. Adoption
2. Inclusiveness
3. Involvement
4. Accessibility

Governments in Africa, development partners and implementers must consider the significance of PWDs in SRH and invest in them.
