  - c. Global and national recognition of the comprehensive and cohesive approach to SRHR through the life-cycle;
  - d. External factors such as economic crisis, food crisis, climate change, health sector reforms, and new aid structures; and

  - b. Define ways to strengthen capacities of NGOs to play these roles.
  - c. Focus on progress that can be achieved from 2009-2015 in ensuring strong political and financial support for SRHR to improve development and secure sustainability.
